

Chronic Pelvic Pain and Interdisciplinary Management

You are cordially invited to attend an online presentation on the management of chronic pelvic pain and the multidisciplinary approach can best serve chronic pain needs.

Throughout the presentation, you will have the opportunity to ask your questions through interactive discussions.

DATE: Thursday, November 24, 2022

TIME: 5pm PT / 8pm ET / 9pm AT

LEARNING OBJECTIVES:

Following the presentation, participants will be better able to:

- Discuss how a centralized and multidisciplinary approach can best serve chronic pain needs
- Explore areas of your practice that may require improvement to ensure the optimal management of patients with chronic pelvic pain
- Identify knowledge and treatment gaps in the management of chronic pelvic pain
